BLISS' WORK

may prove the greatest social innovation of modern time. It has been praised by eminent scholars. Some of its fantastic aspects are:

1. A simple symbol writing, typing, and printing for communication, commerce, industry and science, that can be read in all languages — without translation.
2. A simple symbolic logic which even children can learn to use in their daily problems.
3. A simple semantics for recognising the dangerous words of demagogues and dictators in the homes and nations.
4. A universal natural ethics encompassing all religions.
5. The biochemical discovery that cells act ethically in all creatures. They heal their injured brother cells.
6. The archeological discovery that old stone age man was not a killer of his fellow-man. Cannibalism and war began with new stone age man by the introduction of dangerous words.

"Only God can make a Tree." But only man can pulp it and print lies on it. Simple Blissemanantics exposes the lie and the liar, even to himself, making him realize that what he believed to be the truth was only a jumble of vague words.
